About Me

Accomplished Senior Full Stack Engineer with 10+ years of experience specializing in cross-platform mobile architecture (Flutter) and industrial IoT solutions at Nuventure Connect. Expert in designing and deploying scalable full-stack applications with Dart, Angular, and Python. Proven track record of translating complex industrial requirements into high-performance IoT platforms and polished mobile experiences for global enterprise clients.

Skills

- Android
- Kotlin
- Java
- Flutter
- Dart
- Swift
- React
- Angular
- Vue.js
- JavaScript
- JQuery
- Python
- PHP
- HTML
- CSS
- Mobile development
- Web development
- Cross-platform development
- Cross-platform tools
- REST APIs
- Airflow
- Unity
- C#
- SQLite
- MySQL
- IoT
- Internet of Things (IoT)
- Requirement analysis
- Problem solving
- Product development
- Leadership skills
- Leadership skills

Experience

Nuventure Connect
Senior Software Engineer
11/2021 - Current

- Architected and deployed scalable web and mobile applications using Flutter, Angular, and Python, resulting in significant improvements in user engagement and cross-platform accessibility.
- Engineered robust software solutions tailored to diverse client needs, spanning IoT dashboards and enterprise platforms.
- Orchestrated delivery cycles with cross-functional teams, ensuring 100% on-time project completion and alignment with strategic business goals.
- Mentored a team of 5+ junior engineers, accelerating their technical proficiency and increasing team productivity by 20%.

Codingo Pvt Ltd | Trivandrum
Senior App Developer
05/2018 - 11/2021

- Developed mobile applications utilizing Android, Kotlin, Flutter, and Swift.
- Developed applications for healthcare, education, and enterprise sectors, addressing specific user needs and market demands.
- Utilized Unity for robotic programming, improving application functionality and user experience.

Infametech Solutions | Ernakulam
Android Developer
09/2017 - 05/2018

- Spearheaded the development of high-usability mobile applications for diverse industry verticals, ensuring seamless user experiences.
- Architected Android applications with PHP backends, optimizing data retrieval speeds and overall system performance.
- Led technical discovery sessions with cross-functional teams to define precise project specifications and eliminate scope creep.
- Optimized debugging workflows, reducing application crash rates and improving overall stability for production releases.

A2 Solutions (Harigroup) | Ernakulam
Android Developer
07/2017 - 09/2017

- Developed mobile applications using Kotlin and Java for client projects.
- Delivered multiple Android apps for e-commerce and service-oriented solutions, enhancing user experience and accessibility.
- Integrated RESTful APIs to enhance application functionality and performance.
- Collaborated with designers to create user-friendly app interfaces.

Reubro International | Ernakulam
Android Developer
05/2016 - 01/2017

- Conceptualized and developed high-performance mobile applications for a global user base across multiple Android devices.
- Engineered secure Android applications with PHP/MySQL backends, implementing advanced authentication and real-time notification systems to boost user retention by 15%.
- Enforced rigorous coding standards and design best practices, ensuring long-term maintainability and scalability.
- Synthesized complex project requirements into actionable technical plans, ensuring 100% alignment with client objectives.

Dotwebber Technologies | Ernakulam
Android Developer
10/2015 - 10/2016

- Architected and deployed mission-critical Android applications interfacing with PHP/MySQL backends, delivering low-latency user experiences through optimized API integration.

Sofdia Technologies | Ernakulam
Android Developer
04/2015 - 09/2015

- Designed and implemented robust Android applications leveraging PHP/MySQL backends to deliver feature-rich experiences, including secure user authentication and dynamic content management.

Education

Quest Innovative Solutions | Ernakulam
Certification in Android Application Development

St. George HSS | Muthalakodam
Plus Two in Computer Science

Portfolio

- bitbucket.org/josephpaul0487
- <https://jintopaul89.github.io/portfolio/>

Projects

- NuWave, Angular, IoT, AI Platform, No-Code AIoT Platform for industrial innovation with predictive modeling and real-time anomaly detection.
- ElephantDrive, Flutter, Cloud Storage, Cloud backup management app with file sync and secure storage capabilities.
- NorsupOne AIO, Flutter, IoT, Pool Control, Smart pool control application for remote monitoring and management of equipment.
- Pickleball Courts, Angular, Web App, Platform for adding and listing pickleball courts with search functionality.
- Chefmade, Flutter, Food & Dining, Command center for meal kits and dinner plans. Provides complete overview of weekly menus.
- Menards Videoscope, Android, Video Streaming, App for viewing and recording data from Wi-Fi connected inspection cameras.

Awards & Honors

Employee of the Year - Nuventure Connect (2022, 2024)
Overachiever Award - Codigo Pvt Ltd (2021).
